

REMARKS / ARGUMENTS

Responding to the Office action of March 30, 2005, applicant elects group I - claims 3-7, and 15-20 for examination and cancel claims 3 and 8-14 from this examination. Amendments to claims 1, 2, and 18 enable the claims to describe the inventions more clearly without adding new matters.

The amendments to the specification, in addition to correcting typographical errors, also aid clearer description of this invention without adding new matters.

Respectfully submitted,
